WORK EXPERIENCE

Software Engineer e-Emphasys Technolog

06/2018 – Present

Achievements/Tasks

- Major Contribution in customizing and developing new functionalities for our listed clients like Titan and the product itself.
- Worked on multiple technologies to achieve the required goal.
- Exceptionally well organized with a proven track record that demonstrates self-motivation, creativity and initiatives to achieve both personal and corporate goals.
- Upheld excellent customer service by using listening, verbal communication, problem solving and decision making-skills.
- Applied efforts in drawing continual improvements to existing architecture by refactoring existing code.
- Wrote efficient database queries to retrieve specific data from big chunks of data.
- Code review & functional unit testing of peers.

PROJECTS

End Of Day Reconciliation(Titan) (01/2020 – 03/2020)

- Designed and developed a new functionality in existing product for easy end of the reconciliation of client's store wise income. This feature also provides deposition of the income directly in bank and notifying the managers of any faulty calculations.
- Tools Used: BAAN tools, JAVA, XML files, Business Object Documents, Microsoft reporting services.

Accounts Payable Automation (Komatsu) (06/2019 – 08/2020)

- Established a way of reading bunch of payables invoices in PDF format using Doc Parser and storing them as JSON objects. Later inserting data in ERP system and sending it for Approval.
- Tools Used: JSON, JAVA, BAAN Tools, Visual Studio, DocParser

Android Application (2018)

- Played key player role in making an android application for ticket reservation system.
- Tools used: Android Studio & Youtube

EDUCATION

Bachelors in Engineering Mumbai University

2018

7.2 (CGPA)

SKILLS

Javascript

Servlets/JSP

HTML/CSS

BootStrap

Java

Spring

C/C++

ERP

INFOR

Mysql

Node

DataStructures

Algorithms

Financial Modeling

VS code

Netbeans

Git

CERTIFICATES

Proficiency in Java Programming (2020)
